

K1-A, K1-LCD, K1-PU
Pneumatic Glue Gun

K1-A, K1-LCD, K1-PU Pneumatic Glue Gun

K1-L LCD with bed plate

K1-PU with cartridge and adaptor

K1-A with bed plate, support and foot switch

The **Bickers Exakt K1-A pneumatic glue gun** can applicate high and low viscouses hot melt adhesives in granulated, pillow, stick or cartridge form.

The electronic temperature regulation is functionally integrated in the handle and ensures, depending on the model, a proper temperature regulation from 100° - 235° C. The K1-A glue gun thus maintains the exact temperature for nearly all types of glue.

A stationary support and a foot switch will help you e. g. in gluing small parts. You can use both hands for a more productive work flow. Different nozzles, foot switch, balancer, supports for deposit and stationary operation are further options in organizing your working place to full advantage.

Recommended accessories

- support
- foot switch
- various nozzles
- dispensing unit

Technical data:

<i>Voltage:</i>	220 V / 110 V available
<i>Power:</i>	400 Watt
<i>Max. air pressure:</i>	6 bar
<i>Tank capacity:</i>	250 ml / 310 ml / 330 ml
<i>Weight:</i>	1200 gr.
<i>Max. working temperature:</i>	235° C
<i>Heating up time:</i>	3 – 6 min.
<i>Max. output per minute:</i>	250 ml / 310 ml / 330 ml
