

Exakt Super-306 **Heavy Duty Industrial Glue Gun**

Professional Heavy Duty Industrial Glue Gun for 18.3 mm glue sticks with

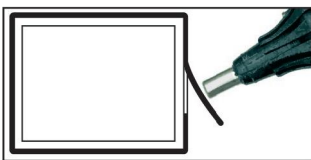

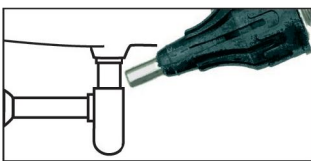

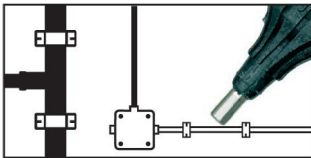

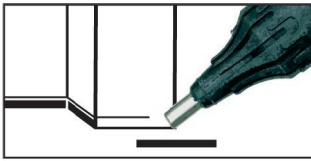

- 600 Watts heating power
- temperature control from 140° C up to 230° C
- drip-free nozzle with silicone protection
- stroke adjustor to preset the amount of glue output
- lit On/Off - switch
- light weight with non breakable housing
- integrated stand as well as ergonomically formed TPR - handle with long, effort-saving trigger for fatigue-free working

Exakt Super-306-P

Exakt Super-306 / 306-P Heavy Duty Industrial Glue Gun

Examples

Hot-melt-glueing, the modern glueing technique

For painters, tile and carpet-layers, decorators, carpenters, interior furnishing etc.

All kinds of border fastening, carpet-works, floor-tile-works, work behind radiators, difficult to reach corners, decorating steps with carpets, plastic-border fastening, sealing against

dust and dirt, protection against water, repair of all kinds. For glueing of wood, old fashion type decorating beams, textiles, cardboard, Polystyrene, leather, imitation leather, strings of all

kinds, tiles, glass, mirrors, Perspex, repair of window dressing dolls and a variety of other purposes.

For electrical installations, electronics and electro-mechanics, radio and TV-repair, car-electrics

Fastening of electrical cable claps, pipes, plastic-channels, switches, housings, etc. on concrete, gas-concrete, plaster, brick, wood, glass, tiles, metal, etc.

Fastening of wire-ends metal, plastic, Ideal for sealing joints and as insulation for house-bell installations, Intercomes, etc. against dust, dirt and water. Fastening of wire-ends

on coils, installation of structural and circuit elements, insulations, avoiding damages by chafing, etc. Not only timesaving but also very cheap.

For plumbing, heating, wiring, air-condition-works

Fastening of clamps, claps, electrical wires on concrete, gas-concrete, plaster, brick, wood, glass, tiles, plastic, metal, etc. Glueing of all kinds of insu-

lation material, including Polystyrene. As sealing- or dowel-compound. Sealing against dust, dirt and water. Glueing and sealing of virtually and

plastic products. Your daily helper on the construction site in any climate.

For roof-constructions, house-front-works, insulation and protection-techniques, etc.

Repair-works in house-fronts, glueing of single sheets or tiles made of Eternit, bitumen, plastic, wood, or slate. Help in working with gypsum-tiles

and assembly of small parts, repair of defects in seconds, no nail needed when installing the last tile. To fix fails, sheetmetal, etc. in position. For

glueing of Polystyrene and other insulants. For all kinds of work you today spend too much money on.

These drip-free nozzles are at your disposal for our Bickers Exakt Super 306 and Exakt VE-212 glueing guns, helping to comply with your most different application conditions.

Information on hot-melt

Our "hot glueing-tips" show, how to achieve best results with the correct glue from our extensive program:

040 ivory ø 12 / 18 mm

used mainly for shortmelting, e.g. toys, tile-sample plates, small packings, wooden parts, etc.

041 transparent ø 12 / 18 mm

for glueing of Perspex, acrylic, glass, lightfittings different plastics, carpets, alarm-units, etc.

041-K clear special ø 12 / 18 mm

as 041, clear joints.

041-SK super clear ø 12 / 18 mm

as 041, superclear joints with higher adherence.

042 brown special ø 12 / 18 / 42 mm

for glueing on the wood- and construction-sector, e.g. dark woods, border fastenings, repair of chipped off parts, natural woods, skirting boards, corner-blocks, leather, veneer, restoration, etc.

043 sanitary white ø 12 / 18 mm

used in the sanitary and interior furnishing area e.g. sealing, tile-repair, curtain rails, plastic end-parts, bathroom fittings, Polystyrene, insulations, Melamin coated materials, PVC, etc....

044 grey ø 12 / 18 mm

for electricians, to fix e.e. cable-clamps, under-plaster-cables and boxes, cable-channels, cable and

wire fastening, alarm-units, insulation, casting parts e.g. plugs, different components, etc.

045 black ø 12 / 18 mm

application i.a. in the car industry, e.g. car-body-works, cable fastening, sealing, insulation, ABS-parts, rubber, carpets, etc.

046 amber ø 12 / 18 mm

powerful glue stick with high tensile and shearing strength.

052-B ø 12 mm

clearly transparent glue stick, especially suitable for PP, PVC, PMMA, ABS, PS etc. Good adherence on metal, ceramics or textiles

061 polyamide ø 12 / 18 mm

stick with high thermal endurance up to + 135° C

071 honey ø 12 mm/15,8 q

universal, very versatile glue. Very good shock and cold resistance.

047 green 048 yellow 049 blue 050 red:

decorative sticks for hobby and art, on demand.
